Front-end Developer for Game Company

At Ultimate Manager we are on a mission to build the world's best fantasy manager game and we need you to help us succeed!

We want to challenge the status quo of football consumption, transforming passive viewers into active users. We do this by creating a beautiful and playful second screen experience, turning the second screen into a game of its own. And we strive to have as much fun as possible doing it!

Your Role

We are looking for a talented and highly motivated JavaScript and HTML5 developer to be the driving force in the front-end development. It is your responsibility to frame and drive the user experience, as well as keeping up with new technologies.

In order to succeed at Ultimate Manger it is important that you are committed to our common mission - to create and run the world's best fantasy football game, and to have fun along the way.

You will become a key member of our development team, which includes a very senior backend developer, a very senior frontend developer, and a business team with several successful startups behind them.

Key skills

- JavaScript (JS is at the core of what we do)
- Solid in HTML5 and CSS3
- A good understanding of Algorithms
- A good understanding of user behavior and motivational behavior
- Applying to best practices
- Taste for cutting edge technologies
- Understanding the software development life cycle and agile development
- A high degree of self-motivation and willingness to succeed

Bonus attributes

- Knowledge of mobile development

- A passion for football and/or gaming is an advantage but not a prerequisite
- Basic Photoshop skills and a good eye for design

What we can offer

- Being part of a super-dedicated and fun team of highly skilled people
- Ability to shape your own work-day (flexible hours)
- A super office environment in the very center of Copenhagen K
- Competitive salary
- Getting your ass kicked in Mortal Combat II, FIFA, and Super Meat Boy;-)

Apply

Please contact CEO Jarl Rosenlykke. Send a resume, links of works, link to your GitHub account (if any), and a nice letter. Job start is as soon as possible.

We would absolutely love to hear from you!
